On Monday, August 23<sup>rd</sup>, starting at 7:00 a.m., the north lane of Main Street in front of the Sooner Theatre, will be closed while contractors use a crane to replace the air conditioning units on top of the theatre. The lane will be closed down beginning on the west side of the railroad tracks and should remain closed until 1:00 p.m.

Also, the project will require the closure of Jones Street on the west side of the theatre to through traffic from 7:00 a.m. until 11:00 a.m., while an OG&E crew assists with the safety of this project by providing a sleeve over the power lines next to the theatre while the crane is being used to remove and replace the west side roof-top units. This block will re-open when the OG&E crew determines that the crane will no longer be operating near the power lines. Local traffic access from the alley behind the theatre and the parking lot west of the theatre will still be available; however, motorists are encouraged to avoid the work area until after the OG&E crew has left the roadway.

Questions regarding this project can be directed to James Briggs, Park Planner at 366-5480 or by e-mail at [james.briggs@normanok.gov](mailto:james.briggs@normanok.gov)
